-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-2 & 5-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Hashimoto et al.

Re claims 1-2 & 6-7, Hashimoto et al discloses (Figures 23-24; column 38, line 29 - column 39, line 39) an image generator for generating an image communicated from a host computer in page description language and converted to a bitmap form which is then recorded on a recording medium (column 3, line 65 - column 4, line 3). A controller for this process detects errors when they occur and issues a command to restart the image generation process when the errors are resolved.

Re claim 5, Hashimoto et al discloses (column 4, lines 2-3) a scanner for reading an image and converting it to image data.

Allowable Subject Matter

3. Claims 3-4 & 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter:

Re claim 3, the art of record does not teach or suggest the recited timing function in conjunction with image generator error detection.

Re claims 4 & 18 (and dependent claims 19-20), the art of record does not teach or suggest the recited user notification and user input functions in conjunction with image generator error detection.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Brinich at 703-305-4390. The examiner can normally be reached on weekdays 7:00-4:30, alternate Fridays off.
